

## Sun City Amateur Radio Club

Sun City, Arizona 85351

September 13, 1977

To All Members:-

Our program committee has a good one to start off the fall season.

Mr. Bill Carrel of the research division of the Arizona Game & Fish Department will give a talk illustrated by slides on "Use of Telemetry Equipment in Wild Life Research". Bill will tell us how black bears are caught here in Arizona (Four Peaks- Roosevelt Lake area) and a radio transmitter is placed on the animal and airplane tracking is employed for Wild Life Research. Bill will also show us actual radio equipment employed.

Meeting starts at 7.30 PM Tuesday September 20th Fairway Recreation Center Club Room, 107th and Peoria Aves. Ladies invited. Bring your ex YL or a friend, they will enjoy this one.

---

Our annual picnic will be held Tuesday October 18th at Del E. Webb Heading Ranch near Sun City. Time 11 AM. Bring your own food and refreshments. Go out 99th Ave., cross Bell Road continue 6.3 miles turn left at small sign, continue 1.3 miles to Picnic grounds.

No regular October meeting will be held. Next regular meeting at Fairway Recreation Center Tuesday November 15th.

### Speaker to explain radio use

Bill Carrel will explain the use of radio transmitters in wildlife research when Sun City Amateur Radio Club meets at 7:30 p.m. Tuesday in Fairway clubroom.

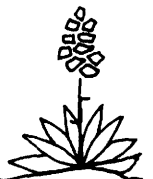

Carrel works for the research division of Arizona Game and Fish Department.

His slide show will illustrate how transmitters are attached to black bears and how airplanes are used in tracking animals for research purposes.

Sincerely and 73

Earl Dietrich WB7WYB

Secretary

Maricopa County

9/16/77

Earl Dietsch-WB7WYB---974-0377

Note of information-F C C address.

Federal Communication Commission

Suite-501

3711 Long Beach Boulevard, California. 90807

Telephone Numbers. 213-426-7886---Exams.

213-426-7955---Questions and complaints.

213-416-4451---General information.

Woe to the owners of automotive and recreational vehicles equipped  
with illegal high-power C B radio units. It has been discovered  
that radio waves emanating from these powerful sets are burning up  
the transistors of the vehicles' cruise controls. In R Vs, the  
radio waves also are affecting solid-state controls in heating  
equipment.

Wanted.

Rockhounds-any one having a 7020 KHz gem in their surplus stock  
please contact-Stan Wade--W7PD-----933-7014

Wanted.

Variable Transformer-5to 15 amp. size, cased or uncased. Call
